At Safari Caravans, we provide quality built caravans at fantastic prices. Our caravans are built to a high standard and specification. All Safari caravans are RVMAA approved and only the best appliances and materials go into the construction of our caravans. With over 20 years of experience we have been building Safari caravans since 2008, and with hard work and dedication to the RV industry have built a reputation for excellent service to our large client base. We have delighted customers from all over Australia, look for one of our wheel covers on one of our many caravans out there and ask the owner about their caravan.
